“Merri Mysteries” is a subsidiary of Acture Pty Ltd. “Merri Mysteries” was formerly known as “Tailor Made Mysteries”.

Although some of the characters in this mystery are loosely based on real people, the events depicted in this mystery are totally fictional.

For further details on **Merri Mysteries** or to order another mystery dinner party kit, see [www.merrimysteries.com](http://www.merrimysteries.com).

See the host’s guide for further details on the copyright requirements for this kit.

## The Suspects

It's the year 2200. French space entrepreneur Pascal Cannon has been suffocated in his sleep the night before. Apart from being a very clever space cookie, he was also a major inter-galactic property developer and an investor. A number of suspects and friends of the deceased are gathered together at the intergalactic criminal inquiry center for questioning. A stellar restaurant has supplied a meal.

The people gathered are:

**Gold Face** (*arch enemy*) I am an Americo-galactic technology whiz-kid turned space tourist. I get called on to solve all the major inter-galactic problems. When I was young my main hobby was blasting small meteors with sound waves from my intergalactic pellet gun. I used my computer to calculate where I should aim my gun. Most of my time now I spend just cruising around. *Dress suggestions:* Business type space gear. Carry a toy ray gun and a calculator.

**Brainy Feet** (*business woman*) I am a very intelligent creature from an outer galaxy. I run a floating help desk and am a technological savior. Shortly after I was born, they tested me for my intelligence quota and I scored 499 out of 500. They discovered that most of my intelligence cells are in my feet, so they nicknamed me "Brainy Feet". Growing up was difficult. My parents wanted me to learn everything I possibly could so I spent all my time studying. My large feet seem to put people off so I don't have a partner. I concentrate on making money instead. *Dress suggestions:* Average business-like space gear. Perhaps antennae. Wear large footwear and carry a palmtop.

**Little Green Man** (*magnesium farmer*) When I was young, my dad took me to an intergalactic convention on magnesium salt farming. I was so excited. There were people there from all over the universe – people like us who lived on moons and sold magnesium to the people who lived on other planets. My dad taught me everything he knew about raking, grading and selling magnesium. He died when I was young and so I had to take over the business. I do my best to make the business profitable but it's a meager living. My mom runs a tour business on the moon. There are about sixty inhabitants on the moon. Mom matched me up with one of her tourists – a purple Sheoate from the bands of Titanus. Our colors are bright – with me being green and she being purple, but nonetheless we love one another dearly. *Dress suggestions:* Conservative working clothes. Green face and green hands and sunglasses (because you can't stand glare).

**Siren** (*girlfriend*) I am an attractive female apparition. When I was born, the galactic suns must have been shining extra brightly, because I turned out to be exceptionally beautiful. My mother entered me in every intergalactic baby and infant contest ever held and I won tons of prize money. I even beat those cuties from the Beauty Galaxy. We were poor, so she tried to make as much money out of me as she could. Now I work as an acting model for the Gala Spacecraft Company. Basically I act in a soap opera and they film us in their latest spaceship. I live off this and money accrued from previous now dead husbands. I guess you might call me a black widow. *Dress suggestions:* Attractive skin-tight space gear. Lots of make-up and cleavage and legs showing.

**Dollar Man** (*businessman*) I am a space capitalist who owns land on numerous planets in numerous galaxies. I am incredibly wealthy. Pascal and I were competitors. I was born to fairly well-off business people, so I must admit I had a good start. They sent me to a good school and I made all of the right kind of intergalactic connections. I mastered in business at university and my parents gave me two zillion to start my own company as a graduation present. I decided to invest in property. I bought a small planet and set up an underground hotel. That left the whole surface of the planet to cover with theme parks, golf courses and the like. It was a real success and I made 1000 zillion. I own a small percentage of most galaxies in most universes. *Dress suggestions:* Futuristic silver business suit – or silver lapels. Cover your suit with dollar symbols and have fake money poking out of your pocket.

**Towel** (*Pascal's towel - female*) I am an extremely pristine looking towel and I am very fastidious about cleanliness. I was manufactured over twenty years ago. I am designed to last at least fifty years. I am self-cleaning and I can change color simply by pressing one of my color tags. I was manufactured to the specifications of my owner Pascal. He wanted a large luxurious soft towel like myself. I am one of the top of the range towels. I have an instant ability to feel warm when it's cold and cool when it's warm. I never become smelly and moldy like some lesser quality towels. I am always dry and soft. Being a towel is a very intimate job. You become very acquainted with your client's body and sometimes their friend's bodies. *Dress suggestions:* Dress in toweling or pin two white towels together at the shoulders.

**Crybaby** (*activist*) They call be Crybaby but it's not my fault if I'm always teary. Because of some genetic stuff-up, I was born with no eyelashes, so I have to cry all the time to keep my eyes lubricated and cleaned. I was born in the middle of a war zone. My parents were both killed when I was still a baby. The intergalactic parent club adopted me and they took good care of me. When I grew up I became a crusader for the downtrodden and started my own activist group. I set up a constitution which forbid us from helping bad people. We only work on the side of goodness. *Dress suggestions:* Mascara streaked face. Dab your eyes with a handkerchief continually. Carry a toy space gun and wear a toy ammunition belt.

## 5 Witnesses (optional roles)

**Probe** (*journalist*) I am a space journalist with telepathic skills. I was born with incredibly sensitive intuition. My parents were always getting me to tell them who was at the door, on the phone, that sort of thing. I can pick things up across seven galaxies so I know the news before it happens. It was useful when I was young. I would know if a boy wanted to ask me out. When I got older, it occurred to me that I could combine my love of writing and my telepathic skills, so I became a journalist. I am one of the best-paid journalists in the universes, because I can always get a story finished before anyone else even knows about it. *Dress suggestions:* Trendy space type clothes. Carry a notebook and pen.

**The Answer** (*computer*) I am Pascal's computer. I might look middle-aged and self-righteous but I am not psychologically unbalanced like some of my computer predecessors. I enjoy being a computer. To me, tricky calculations and parallel computations are fun rather than a chore. But I don't just do calculations. I am also the backbone behind all of his other house and transport devices. They all turn to me for advice. It's me that tells the lights to turn on when it's dark and when Pascal is sensed entering a room. Pascal bought me over ten years ago via a store on the galactanet. He argued with them over the price a bit. But he was happy with me. He said I had the facilities he wanted. *Dress suggestions:* Neat spacey clothing – silver or white. Maybe wear a box.

**At Your Service** (*Pascal's robot*) I am a very attractive robot. You might say I'm a cross between a masseuse, a cordon bleu chef and a housemaid. When I was first assembled, I was sent to hospitality training for my first five years. There was so much to learn – you know mixing drinks, cleaning and so on. It was all in my computer chip, but you were trained in how to tailor it to your assigned client's tastes. We modern day robots offer all kinds of services – back rubs, massages and so on. Pascal said he enjoyed my many talents. *Dress suggestions:* A tight top and a maid's short black skirt and white apron. Speak and move in a very robotic way.

**Punisher** (*investigator*) I am a member of the thought and action police. I use both human mental abilities and computer abilities to solve problems. *Dress suggestions:* Shiny smart suit. Add a computer or some computer chips protruding from some part of your body. © copyright Acture Pty Ltd 2008

Party games for 8 to 100 guests

CRIMESCENE CRIMESCENE CRIMESCENE CRIMESCENE CRIMESCENE CRIMESCENE CRIME

**Musical Mask** (*male or female witness*) I've been Pascal's in-house entertainer for some time.. I am a skilled musician and I can play all the latest hits across the galaxy. I don't just play the music; I morph into the person I am imitating so you have real "live music" experience. Siren told me to have the night off so I went to a club on a nearby planet. *Dress suggestions:* White modern suit outfit and as many instruments as you can gather.

**Groove Move** (*male or female witness*) I am Pascal's personal trainer and resident para-medic. I only work mornings. I spend my afternoons comet riding. I go home to my mother in the evenings. I am a trained dancer as well as a personal trainer. Pascal liked the way I make exercising a fun artistic, creative experience. He preferred me to machine movers. *Dress suggestions:* Wear a combination of gym gear and a flowing modern dance outfit. Also carry some small weights.

**Couch Buddy** (*male or female witness*) I am in-house therapist. I have helped everyone on board both robots and people to deal with their problems and to maintain their sanity in the midst of the constant changing environment of cruising around the universe. I took the night off as per Siren's instruction. *Dress suggestions:* You can either make yourself look like a couch (but one that has a face on it) or dress in any zany way you like.

**Sustainer** (*male or female witness*) I am a gardener and farmer and I keep the green things on board alive. Otherwise we would all run out of oxygen. It is a totally sustainable system. The water run off goes to the fish pond and the fish excrements fertilize the plants. Pascal also collected orchids even though I pointed out to him that they were totally unproductive in terms of food. I had the night off. *Dress suggestions:* Dress in green clothes and add some real or fake plants such as leaves and vines. Carry a watering can and gardening tools.

**Stinky** (*male or female witness*) I am a hybrid cross between a robot and an animal. In my case, I am part skunk. Pascal liked having me as a pet because I was loyal to him and if anyone ever attacked him, I sprayed my notorious smell over them and they never attacked again. *Dress suggestions:* Dress in black clothes but have a white stripe up the back made from cardboard or material. If the clothes can be a little furry, that would help. Maybe have a leash on yourself so you can be taken for a walk.

## “Murder in Outer Space”

by Stephanie Chambers

5 optional witnesses

Musical Mask	Groove Move
Couch Buddy	Sustainer
Stinky	

These are the clues for:

***Gold  
Face***

## Gold Face - Act One

---

During this act, you must reveal the following points:

- 1 *(after Punisher asks how you all met Pascal)* I met Pascal when my mother sent me to one of those nerd type computer camps. I remember he tried to trick me into believing I was supposed to sleep on the floor rather than on my bunk. He was a territorialist monster even then.
- 2 *(after Punisher asks if everyone liked Pascal when they met him)* At the camp where I met Pascal, we were supposed to learn inter-personal social skills so computers were banned. After the first week they discovered Pascal had hidden a tiny computer in his ear and was wheeling and dealing on the Galactanet. When they took it off him, he showed signs of emotion. Pascal and I instantly disliked each other. The feeling was one hundred percent mutual hate.
- 3 *(after Punisher asks if everyone kept in touch with Pascal after they met him)* After we left the camp, Pascal and I continued to send each other abusive Galacta-mail. There is no point trying to repeat it in public, as the Galactic sensors would edit it before it left my mouth.
- 4 *(after Punisher asks if everyone saw Pascal much)* Fortunately we lived on different galaxies, but that didn't seem to stop us bumping into one another at those camps.
- 5 *(after Punisher asks everyone if there was any conflict between themselves and Pascal, say)* Hatred turned a bit more serious when at age sixteen, he sent a missile, which destroyed a tiny uninhabited moon near my planet. Some of the debris actually landed on our house. My parents and I didn't find it amusing. They reported Pascal to the Peace Keeping Authorities, but he dodged them through some legal point or other.

## Gold Face - Act Two

---

During this act, you must reveal the following points:

- 1 *(say after Punisher asks if anyone has been in contact with Pascal recently)* We've been friends for years, haven't we Brainy Feet? We consult one another when we come across a really difficult problem. Two heads are better than one, or should I say one head and two feet are... well you know what I mean.
- 2 *(say to Brainy Feet after she says she never had a client like Pascal before)* I told you we should put our combined intelligences together on the task of getting rid of him. You said, Brainy Feet, that because you worked for him, you knew how his accounting systems worked. You said that it would be possible to hack into his computers and do damage.
- 3 *(say after Brainy Feet says how you had a back-up murder plan)* Maybe Brainy Feet, you should come on one of my trips with me, sometime. I could show you how to relax and have a good time. Throw a few comets across the oceans of time.
- 4 *(after Punisher asks if you wanted to kill Pascal)* Pascal had made it clear to me in his hate mail over the years, that he planned to destroy me some day. I didn't intend to be a sitting lame victim, so I have also been plotting to get rid of this evil person. But plotting and doing are two different things.
- 5 *(say after Punisher asks how you were going to bring Pascal down)* Pascal was so into money. For me it's just a commodity you earn and then spend. My main aim was to find a way to bankrupt him and then to kill him. I knew that taking away his money would really hurt him.
- 6 *(say after Punisher ask if it was just going to be emotional destruction)* Yes. I know a lot about writing computer viruses. Sneaky ones that don't even look like viruses. Hobby of mine – never malicious, mind you.
- 7 *(say after The Answer says he thought you might be able to help him)* We managed to bankrupt him, didn't we?

## Gold Face - Act Three

---

During this act, you must reveal the following points:

- 1 *(say after Punisher asks everyone what happened just before Pascal was killed)* Brainy Feet and I found a way to muddle with Pascal's accounting system so that, on-screen at least, he would think he was bankrupt. We thought that would cause him to have a heart attack and the messy killing business would be unnecessary.
- 2 *(say after Punisher asks if you made Pascal appear bankrupt)* Pascal received a message from one of his accountants very early this morning. He checked the figures on his screen. Unfortunately, egoist that he is, he didn't believe them.
- 3 *(say after Brainy Feet says she agreed to work for Pascal)* When I was hacking into your accounting systems The Answer, I discovered a lot about you, didn't I?
- 4 *(say after The Answer asks you to confirm that there was a lot of intelligence at work)* You were waiting for someone like me to approach you, weren't you, The Answer? You knew you couldn't kill Pascal on your own.
- 5 *(say after Brainy Feet says we looked at how to implement our plan)* Brainy Feet, I told you to let me on to Pascal's spacecraft, didn't I, so I could help you kill him?
- 6 *(say after Brainy Feet says she preferred try to kill Pascal herself)* After all this is over Brainy Feet, we should go on that trip we've been talking about. Maybe get to know each other a bit more.
- 7 You agreed to tell me if Pascal's defenses were ever down, didn't you The Answer?

*Merri Mysteries*

*presents...*

## **“Murder in Outer Space”**

**by Stephanie Chambers**

**These are the clues for:**

***Brainy  
Feet***

## Brainy Feet - Act One

---

During this act, you must reveal the following points:

- 1 *(after Punisher asks how you all met Pascal)* I met Pascal about two years ago when he contacted my company for a quote to fix his accounting systems.
- 2 *(after Little Green Man says Pascal didn't care about hurting people's feelings)* I agree with you Little Green Man. He was an insensitive, rude man. He teased me about my feet, but in business you just have to ignore that sort of thing and get on with the work.
- 3 *(after Punisher asks if everyone kept in touch with Pascal after they met him)* I solved all of his company's problems in just over a month. He said I had done a great job and that he would contact me in the future if he had any further problems.
- 4 *(after Punisher asks if everyone saw Pascal much)* After the job was complete, I sent him an invoice. It was based on the rate we have agreed upon at the start of the job. Two years later I was still trying to get my money from that man. He was the worst paying client I had ever had.

## Brainy Feet - Act Two

---

During this act, you must reveal the following points:

- 1 *(say after Punisher asks if anyone has been in contact with Pascal recently)* After about a month, I rang Pascal to see what was going on with my payment. He said he would follow it up. When I rang a month later he said his accounting system had been down. Next time he told me, quite rudely, to stop hassling him.
- 2 *(say after Siren explains how Pascal eliminated debt collection agents)* I thought about taking him to court, but you know the legal fees are incredible – it's not worth the risk. That creep would have probably wrangled out of it somehow and I'd be left with ten zillion dollars in legal fees. I had never done anything devious before, but you encouraged me to think that way, didn't you Gold Face? Mind you, I had never had a client like Pascal before.
- 3 *(say after Gold Face says you said it would be possible to hack into Pascal's computers)* When I had fixed up his accounting system, I had noticed the security was not the best – it was an outdated model. But I wasn't employed to give advice, only to solve a problem. Pascal was a cheapskate in terms of keeping up with software.
- 4 *(say after The Answer says how Pascal ignored him about security)* We came up with our revenge plan, didn't we Gold Face? I must admit I did enjoy working with you. I was afraid our heart attack plan wouldn't work. But we had a back-up murder plan, didn't we, Gold Face?
- 5 *(say after Gold Fact says he'd like you to come on one of his trips with him)* I'd love to travel with you some day Gold Face.

## Brainy Feet - Act Three

---

During this act, you must reveal the following points:

- 1 *(say after Gold Face says Pascal didn't believe the figures)* What really surprised me was that after Pascal saw how messed up his accounts were, he had the audacity to ring me up for help. I told him to go jump into the fires of Saturn. He hadn't even paid me for my earlier work. He laughed and said he would pay me double what he owed me via an immediate galactanet transfer and he would also pay me three times that amount in advance to unscramble his accounts.
- 2 *(say after someone says that your working for Pascal would make it easier to kill him)* That's a lot of money. I also thought it would give me an even easier way of implementing our murder plan, so I agreed to work for him again.
- 3 *(say after The Answer says he likes to work as a team)* We didn't look at the accounts at all, did we The Answer? We looked at how we could implement our murder plan.
- 4 *(say after Gold Face asks to confirm he asked you to let him on the spacecraft)* I let you on to the ship Gold Face. But I preferred to try to kill him myself.
- 5 *(say after Gold Face says about getting to know each other more)* That sounds like a good idea.
- 6 *(say after Siren says about her 4 hours of boredom with Pascal)* You and Pascal were talking with one another for hours and hours weren't you Siren? We could hear you downstairs.
- 7 *(say after Punisher asks if you went to work for Pascal)* I checked I had received the money and then I went over to see Pascal. It was early this morning. When I arrived at Pascal's spacecraft, you hadn't arrived yet Siren. We talked about the extra checks I could do in his accounting system to see if he was bankrupt. He offered to pay me extra if I could sort it out.
- 8 *(after The Answer says how you plotted to get rid of him)* Later on you told me the time had come to implement our plan, didn't you, The Answer? We just had to wait until Siren had left him alone.

*Merri Mysteries*

*presents...*

## “Murder in Outer Space”

by Stephanie Chambers

These are the clues for:

*Little  
Green Man*

## Little Green Man - Act One

---

During this act, you must reveal the following points:

- 1 *(after Punisher asks how you all met Pascal)* I met Pascal when he stayed in our guesthouse and went on the tour with my mother. He immediately started to tease me about being green. My mother isn't green, she's white. I got all of my father's green genes.
- 2 *(after Punisher asks if everyone liked Pascal when they met him)* Pascal thought I was a wimp because I spend most of my time in the shadows raking up magnesium. I'm not a wimp. I just hate glare. Everyone knows green people can't stand glare. But I couldn't explain that to him. He was such an ignoramus. And he didn't care at all about hurting people's feelings.
- 3 *(after Punisher asks if everyone kept in touch with Pascal after they met him)* Pascal kept coming back to the moon. He must have toured it about ten times. I asked him if he liked it. He just laughed and said, "Anyone who likes the moon must be a lunatic." But that's not true. Just because I live on the moon and love it, doesn't mean I am a lunatic.
- 4 *(after Punisher asks if everyone saw Pascal much)* Pascal decided he wanted to buy the moon. He approached all of the inhabitants and made a very generous offer. He said we could still remain living and working on the moon.
- 5 *(after Punisher asks everyone if there was any conflict between themselves and Pascal, say)* As part of his deal to buy the moon, Pascal promised us a lifetime pension starting a year after settlement. I don't make much money as a magnesium farmer, so I signed up. So did all of the other inhabitants.
- 6 *(after Punisher asks you if some people didn't like Pascal's development plans)* Pascal said he planned to build a large resort on the moon and to attract tourists to it. I thought that was rather a foolish plan. My mother only manages to attract about one hundred guests a year to the moon. It's because the moon is not that attractive a place to visit. It is extremely cold all year round, for one thing.

## Little Green Man - Act Two

---

During this act, you must reveal the following points:

- 1 *(say after Punisher asks if anyone has been in contact with Pascal recently)* I asked Pascal if he was worried that people would not be attracted to the moon. He sort of dodged the question and said that he was good at making money.
- 2 That phrase he'd used "as long as the planet existed" kept going round in my brain and I thought Pascal had been acting strangely about it all. I decided to make some inquiries. I called you, didn't I, Probe? I told you what had happened and what Pascal had said. You thought, there could be a story in it, so you put your telepathic sensors to work.
- 3 *(say after Probe says she'd already found out about Pascal)* I remember when you told me what you had sensed. You seemed so distressed about it, as if it was your problem, not just my problem.
- 4 *(say after Probe explains why your problems are important to her)* You said that Pascal had bought the planet so that he could blow it up, just for fun and watch the parts of the inhabitants be splattered across the universe using his new extra sensitive binoculars.
- 5 *(say after Probe explains why she hasn't been able to get clear messages)* You offered to do an exposé about it, but when we looked into the legal implications, there appeared nothing we could do to stop him, even if the exposé caused a mass outcry.
- 6 *(say after Probe says she arranged to interview Pascal)* You suggested that I contact your friend, Crybaby, so I did. You were really eager to help, Crybaby. You suggested we bomb his spacecraft.
- 7 *(say after Crybaby says he suggested that and other options)* I was a bit hesitant, because I didn't want any innocent people or objects to be killed. You said you would arrange for them to all be off ship when the bomb went off, but I still didn't like the idea.

## Little Green Man - Act Three

---

During this act, you must reveal the following points:

- 1 I contacted Pascal this morning. I told him I wanted to meet with him immediately. He agreed and I zoomed myself to his spacecraft.
- 2 (*after Punisher asks what you said to Pascal*) I told him that I knew what he was up to and that I hadn't told anyone else and that I was prepared to let him change his mind. I pleaded with him for the innocent people on my planet.
- 3 (*say after Punisher asks how Pascal responded*) He just said "Tough luck". I wanted to hit him, but I could see he had his daytime force field switched on.
- 4 (*say after Probe says you were arriving as she leaving the meeting room*) Instead of getting off the craft, I ducked into the male visitor's bathroom. I stayed there for a long time. No one came in. Pascal had his own private bathroom. It was a boring day, stuck in that room, but I wanted to wait until late at night when Pascal would be sleeping.
- 5 (*say after Probe says she was the female bathroom*) I thought something was strange when I left the bathroom later that night. The lights didn't go off in the room and I found the hallway darkened. I suppose that's because you were off duty, The Answer. I am used to creeping around in the shadows, so I found my way about OK.
- 6 (*say after Crybaby says he saw Siren arrive*) As I left the meeting room, I saw you coming on board, Siren, but you didn't see me. You had a strange glaze in your eyes as if you were planning something very evil.
- 7 (*say after Brainy Feet says The Answer told her the time had come to implement their plan*) I didn't see you about Brainy Feet. You must have been downstairs when I arrived.
- 8 (*say after Towel says you are grimy*) I am coated with magnesium dust, but I wouldn't call myself grimy.

# ***Extra Clues***

## Extra Clues - Act One

---

*You should divide these 10 clues amongst the witnesses (if you have one). Please make sure they are all given out. If you don't have many witnesses, you may like to also share them with the investigator and suspects.*

-----  
I heard Little Green Man asking Pascal if he could still continue to farm magnesium if he bought the moon. Pascal answered him by saying that Little Green Man's lease would continue for as long as the planet existed. I thought that was a strange way to put it.  
-----

*(say after Gold Face says how Pascal sent a missile to destroy a moon near his planet)* Yes At Your Service told me that Pascal told her that he was going to get rid of you some day, Gold Face. He really hated you. Irrational kind of hatred. Pure hatred. He couldn't even speak your name without smoke coming out of his ears.  
-----

Pascal's arsenal is a hundred times more than most space crafts have for self-defense.  
-----

Pascal normally takes his pet hybrid Stinky for a space walk every day but today he didn't. If he doesn't take Stinky for his walk, his bellow can be heard across the universe.  
-----

Pascal is very fit but the strength of any robot is ten times that of even the strongest man.  
-----

When Pascal was killed his spacecraft was on auto-pilot.  
-----

Pascal's spacecraft is one of the fastest and it has extra boost so that anyone leaving it can get to where they are going in a lot less time.  
-----

Guns and other projectile weapons can't be used on any spacecraft. Otherwise they create holes in the ultra-thin, ultra-efficient exterior of the craft.  
-----

Pascal used to spend a lot of time with his therapist. They were working through his inferiority complex relating to his new girlfriend Siren.  
-----
